## 1. Qualitative Information on Quarterly Results

#### (1) Explanation About Operating Results

The Japanese economy continued to recover at a gradual pace as overall corporate earnings remained at high levels, though slight weakness was seen mainly in the manufacturing industry. Labor and income environment also improved, amid sustained recovery in jobs environment and corporate earnings supported by measures taken by the government and the Bank of Japan. In Asia, the Chinese economy is expected to continue to slow down at a gradual pace for a foreseeable future, but, in time, the various measures the government has taken is expected take effect. Economic conditions in other areas of Asia have recovered at a gradual pace. Amid such circumstances, while the construction industry, which has a significant bearing on our group, remains stable, uncertainties remain as issues such as the rise in material and logistics costs and the risk of work delays due to labor shortage are yet to be solved.

In the nine months ended December 31, 2019, consolidated net sales increased 20.3% from a year earlier to 24,562 million yen. Consolidated operating income totaled 1,040 million yen, up 238.0% year-on-year, consolidated ordinary income totaled 1,163 million yen, up 156.5% year-on-year, and quarterly net income attributable to owners of parent reached 970 million yen, up 72.5% year on year.

For two of the overseas subsidiaries that settle accounts on December 31, including Nikko (Shanghai) Construction Machinery Co., Ltd., the Company has previously used financial statements dated December 31 and made necessary adjustments on important transactions that occurred from that date to the consolidated settlement date in order to better grasp the operational situation and disclose the quarterly consolidated financial statements. However, from the first quarter of the current fiscal year, the Company introduced a method of settling provisional accounts on the consolidated settlement date on March 31 for these companies for consolidation.

Due to this change, for the reporting fiscal third quarter, accounts for the 12 months between January 1, 2019 and December 31, 2019 were consolidated.

Results by segment are as follows.

### (i) Asphalt Plant-Related Business

Net sales of products in Japan increased from the same period year-earlier, but net sales of the maintenance business decreased from the period a year earlier. Overseas net sales increased from the same period a year earlier, driven by increased exports and pushed up by the introduction in the first consolidated reporting quarter of the method of provisionally settling accounts of Nikko (Shanghai) Construction Machinery Co., Ltd. on the consolidated account settlement date. As a result, net sales of the business increased 21.0% to 12,456 million yen from the same period a year earlier.

### (ii) Concrete Plant-Related Business

Net sales of products increased from the same period a year earlier, as the level of order backlog at the beginning of the period was higher than the previous fiscal year. Net sales of the maintenance business increased from the same period a year ago. As a result, net sales of the business increased 14.8% to 6,291 million yen from the same period a year earlier.

# (iii) Environment- and Conveyor-Related Business

Net sales of both environmental products and conveyer products increased compared with the same period a year earlier. As a result, net sales of the business increased 12.7% to 1,914 million yen from the same period a year earlier.

# (iv) Other Business

Net sales of temporary construction materials, crushers, and waterproof boards increased compared with the same period a year earlier. As a result, net sales of the business increased 32.5% to 3,899 million yen from the same period a year earlier.

# (2) Explanation About Financial Position

Total assets at the end of the reporting period was 44,433 million yen, increasing 463 million yen from the end of the previous consolidated fiscal year.

Current assets came to 29,616 million yen, increasing 225 million yen from the end of the previous consolidated fiscal year. Major factors contributing to these increases were cash and cash equivalents, and inventories increasing 1,746 million yen and 1,572 million yen respectively, and notes and accounts receivable-trade, and electronically recorded monetary claims decreasing 2,692 million yen and 250 million yen respectively. Noncurrent assets came to 14,816 million yen, up 238 million yen from the end of the previous consolidated fiscal year. This decrease resulted due mainly to property and equipment increasing 707 million yen and investment securities decreasing 535 million yen.

Liabilities totaled 14,045 million yen, increasing 490 million yen from the end of the previous consolidated fiscal year. The increase was due mainly to an increase of 417 million yen in electronically recorded obligations, accounts payable-factoring increasing 584 million yen, and respective decreases of 318 million yen in income taxes payable, 129 million yen in accounts payable-other and 274 million yen in provision for bonuses.

Net assets came to 30,387 million yen, down 26 million yen from the end of the previous consolidated fiscal year. Major factors contributing to this change include an increase from booking 970 million yen in quarterly net income attributable to owners of parent, a decrease of 209 million yen in valuation difference on available-for-sale securities and a decrease from paying 1,005 million yen in dividends.

As a result, equity ratio dropped to 68.4% from 69.2% at the end of the previous fiscal year.

(3) Explanation About Forward-Looking Statements, Including Forecast of Consolidated Financial Results There is no change in the performance forecast for the year ending March 31, 2020 that was disclosed on May 10, 2019.
